Nvidia Shield

Step-by-Step Instructions for Best Experience

(Reference Model: Nvidia Shield Pro TV 2019)

Select your Nvidia Shield Version

Shield TV Pro

Version 8.0

V7.2.3 or Earlier

Audio Settings

Video Settings

HDMI CEC Settings

STEP-BY-STEP GUIDE:

Connect Nvidia Shield TV Pro (HDMI OUT) to soundbar HDMI 2 or 3 (processing prioritized ports) with a HDMI-certified High-Speed 2.1 cable (48Gbps) for high quality video and audio. [Recommended HDMI Cable >](#)

NOTE

The Nvidia Shield is capable of supporting lossless formats such as Dolby Atmos TrueHD and DTS-HD MA. With an HDMI 2.1 and an eARC TV, you will be able to have the Shield plugged into either or to get the best possible audio quality.
